River Out of Its Banks at Rapids

[Herald-Times Photo]

The Manitowoc river, swelled by heavy rains early Sunday, overflowed its banks and spread ice cakes all over the landscape. The picture is a view looking north from the lower bridge at Rapids.

Side Road and Bridge Under Water at Eastwin

[Herald-Times Photo]

The extent to which the East Twin River, between Mishicot and Two Rivers was out of its bank is shown in this picture. A side road running east from Highway 163, toward Two Creeks just north of Eastwin, was completely under water. Only the railings of the bridge showed. The water at this point was more than a half mile wide.
